Salam Sejawat,

Penyakit ginjal kronik dan hipertensi hingga saat ini masih menjadi permasalahan kesehatan global dengan beban morbiditas dan mortalitas yang tinggi, khususnya pada populasi dengan risiko tinggi. Kompleksitas kondisi klinis yang semakin meningkat, disertai dengan perkembangan ilmu pengetahuan dan teknologi di bidang kedokteran, menuntut adanya pembaruan wawasan yang berkesinambungan serta pendekatan tatalaksana yang lebih komprehensif dan terindividualisasi.

Sehubungan dengan hal tersebut, kami kembali menyelenggarakan rangkaian kegiatan ilmiah **The 18th Indonesian Nephrology Forum (INF), The 25th Jakarta Nephrology and Hypertension Course (JNHC), & Symposium on Hypertension (SH)** sebagai wadah untuk berbagi pengetahuan, pengalaman, serta perkembangan terkini dalam bidang nefrologi dan hipertensi. INF yang biasanya diadakan pada hari Kamis, tahun ini diselenggarakan di hari Sabtu malam.

Pada tahun ini, JNHC mengangkat tema **“Management Strategies of Chronic Kidney Disease in High Risk Population”**. Tema ini dipilih untuk menyoroti pentingnya strategi penatalaksanaan yang tepat pada pasien dengan penyakit ginjal kronik yang memiliki faktor risiko tinggi, melalui pendekatan yang komprehensif mulai dari deteksi dini, stratifikasi risiko, hingga optimalisasi terapi guna memperlambat progresivitas penyakit dan meningkatkan luaran klinis pasien.

Selanjutnya, SH mengusung tema **“Individualizing Therapy in High Risk Hypertension Patients”**, yang menekankan pentingnya pendekatan terapi yang bersifat individual dalam pengelolaan hipertensi. Dengan mempertimbangkan karakteristik klinis yang beragam pada setiap pasien, diharapkan pemilihan terapi yang lebih tepat sasaran dapat memberikan hasil yang optimal serta menurunkan risiko komplikasi jangka panjang.

Tahun ini untuk pertama kali ada Free Paper (Oral & Poster) serta Nephrology Scientific Competition (NEPHRON)

Kami berharap rangkaian kegiatan ilmiah ini dapat memberikan kontribusi nyata dalam meningkatkan pemahaman dan kompetensi klinis para Sejawat, serta mendorong penerapan praktik berbasis bukti dalam penatalaksanaan penyakit ginjal kronik dan hipertensi.

Akhir kata, kami mengundang seluruh Sejawat untuk berpartisipasi aktif dalam rangkaian kegiatan **The 18th INF, The 25th JNHC, & SH 2026**.

Sampai bertemu pada rangkaian acara **The 18th INF, The 25th JNHC & SH 2026**.

The 18th Indonesian Nephrology Forum, 25th Jakarta Nephrology and Hypertension Course, Symposium on Hypertension (INF-JNHC-SH) 2026 committee invites you to submit your abstracts of original research, systematic review/meta-analysis, or case report which are related to the main topic of the congress or nephrology and hypertension field. The Scientific Abstract Reviewer Committee will evaluate and select the abstracts based on quality, clarity and relevance on the main topic or nephrology and hypertension field.

General Policies

1. All abstracts must be prepared according to the correct format and requirements. Submissions will be returned to the author if not in the correct format and should be resubmitted to the committee with the exact format
2. Abstracts submission will only be received online through INFJNHCSH 2026 website <http://jnhcsh.com/abstract> through the submission form.
3. Faxed or mailed hard-copy abstract or abstract sent on disc/CD will not be accepted.
4. There will be no limit to the number of abstracts for an author to submit.
5. The Scientific Abstract Reviewer Committee will evaluate and select all abstracts for Oral Presentation or Poster Presentation
6. Abstract submission will be opened until **20 April 2026**.
7. Notification of abstracts acceptance will be given to the presenting authors via email at the latest on **1 May 2026**.
8. All presenting authors, whose abstracts are accepted, must be registered to the INFJNHCSH 2026 event. Abstracts will not be processed until an abstract registration fee has been received.

Abstract Format Guidelines

- A. Language English (Clear with accurate grammar and spelling of a quality suitable for publication)
- B. Title Abstract titles should be concise and should not contain Please use Title Case and make sure to bold the entire title. Example: Title of Abstract
- C. Author First name (s) or initials of first name (s) followed by family name.
- D. Affiliation details of all authors: Department; institution/hospital; city; country.
- E. Body
 - Submit through abstract submission form
 - Abstracts must not exceed a 250-word limit. The word limit relates only to the text of the abstract and does not include title, authors and institutions.
 - No picture or graphic allowed in the abstract.

Original Article

This category is intended for original clinical, translational, or basic science research.

Scope includes (but is not limited to):

- Clinical nephrology
- Dialysis modalities and technologies (HD, PD, HDF, CRRT)
- Acute kidney injury and critical care nephrology
- Kidney transplantation and immunology
- Biomarkers and laboratory-based research
- Epidemiology and public health related to kidney disease
- Multidisciplinary and collaborative kidney care models

Abstract structure:

- Background
- Methods
- Results
- Conclusion

Case Report

This category is intended for educational, rare, or challenging clinical cases that provide meaningful insights for clinical practice.

Scope includes (but is not limited to):

- Rare kidney diseases or atypical clinical presentations
- Challenging dialysis, vascular access, or CRRT cases
- Unusual complications in CKD, dialysis, or kidney transplantation
- Diagnostic dilemmas in nephrology
- Innovative or multidisciplinary management approaches

Abstract structure:

- Background
- Case Presentation
- Discussion
- Conclusion

Systematic Review / Meta-analysis

This category is intended for structured evidence synthesis addressing focused clinical or research questions in nephrology.

Scope includes (but is not limited to):

- Therapeutic interventions in kidney disease
- Dialysis outcomes and technologies
- Biomarkers and diagnostic accuracy
- Prognostic factors in AKI, CKD, and transplantation
- Comparative effectiveness research

Requirements:

- Conducted in accordance with PRISMA guidelines
- Clearly defined research question (PICO format recommended)
- Description of literature search strategy and databases used
- Quantitative synthesis (meta-analysis) when applicable

Abstract structure:

- Background
- Methods
- Results
- Conclusion

ORAL PRESENTATION

- All applicants must submit an abstract to be presented in the INFJNHCSH 2026.
- The committee will evaluate the abstract which is categorized as Oral Presentation.
- If accepted as oral presentation, applicants should submit presentation slide (PPT format) through our submission form, and print the poster to be displayed on their designated poster board
- Applicants will present their paper in Oral Presentation session INFJNHCSH 2026 directly.
- Research posters will be displayed during INFJNHCSH 2026.
- The winner will be announced and rewarded during the INFJNHCSH 2026 closing ceremony on 10th May 2026

POSTER PRESENTATION

- All applicants must submit an abstract to be presented in the INFJNHCSH 2026.
- The committee will evaluate the abstract which is categorized as Poster Presentation.
- If accepted as poster presentation, applicants should print the poster to be displayed on their designated poster board.
- Applicants will present their paper in Poster Presentation session INFJNHCSH 2026 directly.
- Research posters will be displayed during the INFJNHCSH 2026.
- The winner will be announced and rewarded during the INFJNHCSH 2026 closing ceremony on 10th May 2026

- Submit your abstracts of original research, systematic review/meta-analysis, or case report which are related to the main topic of the congress or nephrology and hypertension field
- Get prizes for Best Oral Presentation & Best Poster Presentation

**CALL
FOR****NEPHRON****Nephrology Scientific Competition 2026**

A scientific competition event between PERNEFRI regions to improve accuracy, speed of thinking, and mastery of basic and clinical concepts of nephrology and hypertension in a fun, equitable, and competitive.

Nephron Participant Requirements:

- **Registered** as participants of INF-JNHC-SH 2026
- Each team consists of **3 members**.
- **Eligible participants:**
 - General Practitioners
 - Dialysis Nurses
 - Internal Medicine Specialists
 - Nephrology Subspecialty Trainees
 - Nephrology and Hypertension Consultants
- Participants must be **no older than 45 years**.
- **Each PERNEFRI Regional Coordinator** is expected to send **at least one team**

Competition Rules:

- The competition will consist of three stages: Qualification, Semifinal, and Final.
- Top 10 teams in qualification round will advance to semifinal round.
- Top 5 teams in semifinal round will advance to final round.
- Questions format in qualification and semifinal round are multiple-choice question.
- Questions format in final round are rapid-fire short answers.
- Any form of cheating or misconduct results in immediate disqualification.
- Respect and sportsmanship are expected at all times.

Topics:

- Pressures Rising: The Hypertension Hustle
 - Mechanisms, classification, resistant hypertension, secondary causes, treatment strategies
- Glomerulus Gone Wild
 - Glomerulonephritis, nephrotic/nephritic syndromes, biopsy clues, serologic markers
- The Clinic Chronicles: Everyday Nephrology
 - AKI, CKD, electrolyte disorders, acid-base balance, pharmacology in CKD
- Dialysis Dilemmas: HD and PD
 - Hemodialysis and peritoneal dialysis principles, adequacy, complications, innovations (MCO, HDF, hemoperfusion, etc).
- The Gift of Life: Transplant Tales
 - Transplant immunology, donor/recipient selection, rejection types, immunosuppressive drugs, post-transplant complications.
- Puncture and Pressure: Interventional Nephrology
 - Ultrasound, vascular access, renal biopsy, catheter management, PD catheter placement
